We're here to create a welcoming environment as a way to attract individuals to share experiences with fellow enthusiasts.

- 5. Instructors:** For this event, all new participants and those not signed off by their previous instructors will be required to have an instructor. All the instructors HAVE been around the track one or more times. Pay attention to what your instructor has to say as if your future sign-off is riding on it (because it is).
- 6. Rules of the Road:**

 - No overly aggressive driving.
 - Because it is being run during the county-mandated Quiet Time on Sunday morning, adequate mufflers are required on all vehicles.
 - Passing for each group is as follows:
 - Novice - Front Straight and Back Straight ONLY. Point-Bys required.
 - Intermediate - Front Straight, Short Straight (Turn 5 to Turn 6), Back Straight. Point-Bys required.
 - Advanced - Anywhere on track. Point-Bys required.
 - Any tires off-track or spins will require you to come into the pits. If you do not self-report, we'll black flag you and the discussion will be longer than if you self report.
 - Unless your car is on fire, under no circumstance should you leave your car. Even if you're stalled or spun on-track, **STAY IN YOUR CAR.**

- When coming in the pits, use your left hand outside the driver's window to signal. If you cannot do so, use your turn signals to indicate your intention to come into the pits as you come out of Turns 10A/B.

7. Flags and Their Meanings:

- Yellow - There is something coming up ahead that needs your attention. Do not attempt to pass anyone and be aware that a car or debris may be on the track. The more vigorous the movement of the flag, the larger the potential issue.
- Red - Come to a complete stop on the side of the track as soon as you can safely do so. Do NOT slam on your brakes.
- Blue - Our MOST IMPORTANT flag during a Track Event. You are currently impeding someone else's on-track fun. If you don't want someone to do the same to you, check your mirrors and safely point the car behind you by.
- Black - Immediately come into the pits this lap. Either there's something wrong with your car or we need to talk with you about an issue on track. The longer you stay out, the more likely it is you will not get back on track.
- Checkered - The session is over. Proceed on a cool-down lap. Continue at 5/10ths - 6/10ths speed and wave to the corner workers to thank them for their help! This is a time to get your car cooler and for you to both relax a little and reflect on how awesome what you just did was!
